According to his own experience, Lynn said, he kept six of the lanes open at all times for non-players. Beginners or persons who don't bowl in competition will have a chance to play.

Most of the alleys will be equipped with semi-automatic pin-setting machines. "This will be the first of this type of equipment on the Coast," Lynn said.

The bowl will contain 20,000 balls plus an additional 700 bowling lot at the rear of the building with entrance on Adams Street.

In charge of construction work will be F. Lynn, 1044 Folger Ave., who was the architect.

The festival is sponsored by the Albany High Folk Dancers under the direction of David Boyce, local dance instructor.

During the evening 36 nationality dances will be presented on the program, featuring seven Junior Clubs in exhibit dances. The Albany High Folk Dancers are a member group of the Junior Section of the Folk Dance Federation of California. It is their belief that this project is a definite effort toward the curbing of juvenile delinquency that is prevalent in many communities.

The public is invited to attend, either as young people participants or as adult spectators.

Albany Soroptimist News By BEA RAYMOND

The Soroptimist Club of Albany held their regular meeting on Wednesday, March 9, with Grace Higgins, charter president, conducting the meeting.

Grace spoke with much pride about the accomplishments of the club since its organization some four years ago. Of course, Grace was too modest to state the truth, which is, it was due to her organization ability and leadership that the club has made so much progress.

We had a very full program this week. First speaker was L. N. Curtis of L. N. Curtis and Sons, from whom we purchased the iron lung. We had the iron lung on exhibit and Curtis spoke briefly, as his time was limited. Many of our members had been so busy gathering money to pay for the lung, that we had not actually inspected the lung and had not the faintest idea just how the darn thing operated. We were very grateful to Mr. Curtis for giving time to explain its working function.

Our next speaker was Miss Bonnie Bortin, head of the Girl Scout movement in Codornices Village. She was introduced by Mildred Hein, chairman of the Girl Scout Troop committee, sponsored by the Soroptimist Club.

Our last speaker was Dr. Paul Bryan, superintendent of Albany schools. Naturally his subject was education and was presented in a masterly manner.

Betty Allison had as her guest Miss Helen Dinkle, who is, so to speak, been adopted by our club. Helen was stricken with polio. Due to the Soroptimist Club providing ways and means for her transportation to and from the swimming pool and for treatment, she has improved a great deal. Ultimately we hope she will completely regain her health.

Northbrae Mothers Council to Meet

Guest speaker for the regular meeting of Mothers Council of Northbrae Community Church on March 16 will be Mrs. Scott Haymond, prominent member of Northbrae Women's Club, who will use "The Busy Life of a Christian Woman" for her subject.

Refreshments will be served at 10 a. m. by Mrs. W. F. Melvin, hostess for the day.

Albany Red Cross Drive Near Quota

Fund returns for the first ten days of Red Cross campaigning Thursday showed Albany was \$3,135.36 towards its \$4,200 quota.

Passing the prescribed \$1,150 goal, returns from Albany business firms, civic clubs, and schools reported a total of \$1,178. Although slowed down because of weather conditions, the residential districts have collected \$1,957.36 of their \$3,050 goal.

Experimental Play Program Announced

In addition to the regular playground activities at the Albany Schools, a special experimental project has been planned for the month of March for Albany school children at the Marin School, according to Bert Griffin, director of recreation.

Demonstrations on salmon hook-ups, fly, plug, and bait casting will be given this Saturday from 10 to 11 a. m., with the owner of Albany Bait Shop as instructor.

Scheduled for March 19 is a roller skating party at Rollerland Skating Rink of Oakland. Special skating acts will be presented by the Rollerland Rink Skaters.

Bicycles and parade of decorated bicycles for all children is planned for Saturday, March 26.

Although these special activities are given at Marin school this month, they will be extended to other playgrounds if proven successful. They are open to all Albany children.

Marin School PTA Hear Child Expert

Mrs. Faith Smitters, former psychologist of the Los Angeles County Schools, was guest speaker at a meeting of Marin PTA on March 8.

Showing the film "Feeling of Hostility," Mrs. Smitters discussed "Problems of the School Age Child." A question and answer period followed the lecture.

After a musical program presented by the Marin School Orchestra, under direction of Mrs. Jeanette Bruce, tea was served by mothers of second grade students.

Scout Troop 42

Plans for an overnight hike to Camp Herms is scheduled for Scout Troop No. 42 for the latter part of March, according to an announcement by William Johnson.

The Scouts with their fathers held a joint swimming party last Saturday at the Berkeley YMCA, which was well attended.

On Sunday, Feb. 27 the Troop enjoyed a day of winter sports at Auburn. Former Scoutmaster Frank Gray joined the group there, where he gave the boys instructions on skiing.

The group also attended an ice hockey game between Fresno and Oakland Oaks on Feb. 25, along with their dads and members of the committee.

Whist Party to Aid Children's Home

Plans for a Whist Party, to be held on Friday, March 11, 8 p. m. in the gymnasium of Albany Community Methodist Church, were discussed in a meeting of Albany Auxiliary of the Children's Home Society at the home of Mrs. Mary Williams, president, of Walnut Creek.

There will be a cash door prize and a prize for each table. Prizes may be seen on display in the window of O. A. Nelson Appliance Co. of Albany.

The next meeting will be held

Albany Hill Development Proposed

The City Planning Commission submitted four recommendations for development of Albany Hill to the City Council in a meeting Monday night at the City Hall.

As the initial action to get water to the hill area, the Commission submitted the following suggestions: (1) The top of Albany Hill remain as is. (2) A booster pump be installed to service homes on the hill with water. (3) Work proceed as soon as possible so that those property owners on the south end would be in a position to build this year. (4) The city engineer's office and Planning Commission jointly work out plans for the streets, parking areas, and other related subjects, and submit them to the Council.

To back its No. 1 point, the commission stated that a study had proved that it was practical to build homes on the hill as it now stands.

The Council upon the motion of Ernest Blow agreed to concur with the Commissions in the No. 1 recommendation, that of leaving Albany Hill as it is. The other recommendations were taken under study.

In other business, the Council agreed to advertise for information on parking meters. A proposed ordinance, setting up the legal machinery for the meters was being studied by Council members.

Two Boys Injured In Auto-Bicycle Accident Here

Two Albany newsboys were sent to Herrick Hospital last Thursday evening with injuries sustained when the bicycle they were riding was struck by a car at Solano Ave. and Jackson.

Injured were Norman Vaughn, 14, 910 Adams St., who suffered a fractured right leg and abrasions of the head; and Ted Barnett, 13, 1032 Talbot Ave., who received a fracture of the left leg.

Police said a car driven by Kenneth Frank Allen, 42, of 917 Jackson, struck the boys who were riding double on the bicycle. Allen was driving west on Solano Ave., making a left turn, when the collision occurred. The boys were riding down hill on Solano, police said.

FEEL THE TIP-TOE MIRACLE IN THE '49 FORD!

...the new overdrive

You can actually feel the "4th gear" smoothness of the '49 Ford's Overdrive.* Your toe on the gas pedal turns it "on" or "off"... in a flash—with up to 15% more gas mileage! And this new Tip-Toe Miracle is only one of the exciting new features that give the '49 Ford its new "Feel."

FEEL THOSE
"SOFA-WIDE" SEATS!
Feel new comfort on seats that
are up to 5 feet wide! Plenty
of head, hip and shoulder room
for six big people!

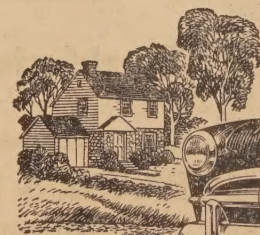

FEEL THE "MID SHIP" RIDE!
Feel how much smoother you ride
in Ford's lower center-section.
Fore and aft you ride "Mid Ship"
—not over the wheels.

FEEL THOSE
"MAGIC ACTION" BRAKES!
Feel Ford's new King-Size Brakes
turn car momentum into braking
power for 35% easier braking
action.

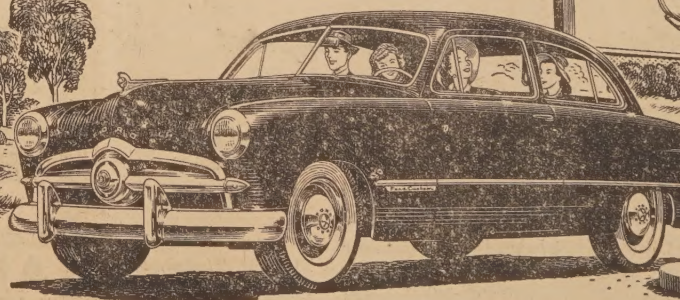

FEEL "HYDRA-COIL" SPRINGS!
They seem to "step over" the
bumps! And the new Ford "Para-
Flex" Rear Springs give a soft,
level, rear-seat ride!

FEEL "EQUA-POISE"
POWER!
Feel that "get-away" power
from Ford's new "Equa-Poise"
Engines—100 h.p. V-8 or
95 h.p. SIX—up to 10% more
gas economy!

FEEL THE EASE
OF HANDLING! ... in traffic, in parking, on the
open road! Feel the sense of control you get from
Fingertip Steering. Feel the '49 Ford hug the road—
even in a cross wind. Come in for a ride. Drive a Ford
and feel the difference!

* White sidewalls are
available at extra cost.

to help keep your electric bill low . . .
P.G. and E. makes lightning in the laboratory

The sharp crack of a lightning bolt may seem out of place in a lab . . . but it's one of the many ways P. G. and E.'s Bureau of Tests and Inspection helps keep your electric bills among the lowest in the nation. Technicians give this "trial by lightning" to power-line insulators to make sure they won't cause costly breakdowns. High voltages are built up on one side of an insulator until the electricity arcs around it through the air . . . a miniature lightning flash. If the insulator "punctures" or if the flash comes too soon at too low a voltage, the insulator is rejected.

The life of power poles depends on rot preventives below ground. P. G. and E. tests these, too . . . along with thousands of other things such as the breaking strength of cross-arms and the conducting efficiency of the wire they support.

Lower electric bills and dependable service are the result of these and other tests. They all add up to longer lasting, harder working, more economical materials in P. G. and E.'s generating plants and transmission lines.

Work never stops on our power-building program
P.G. and E. PACIFIC GAS AND ELECTRIC COMPANY

For the record
 Last year the Bureau inspected some 6,000,000 pounds of copper wire.
 This wire helps distribute 553,000 electrical horsepower added since last May . . .
 . . . to more than 60,000 new customers connected in 1948.
